

County Initiative to Reduce Homelessness #1

Effective October 2, 2017, families experiencing homelessness can self-register for emergency shelter services by visiting the website and answering a few questions.

Sacramento County Department of Human Assistance (DHA) is partnering with Next Move and Volunteers of America to ensure maximum and more effective utilization of our family shelter system.

The registration website can be accessed through a personal device, or at one of the DHA resource centers, located around the county.

You will be contacted in 3 business days!

Families will be prioritized for shelter based on vulnerabilities, including the experience of literal homelessness, and shelter vacancy.

No family will be denied shelter services due to household configuration, eligibility for aid, employment or criminal history (with the exception of registered sex offenders).

Families with Pets!

Partnerships with the City and County of Sacramento Animal Care and Control Centers will assure onsite pets are healthy and safe while their human counterparts receive the intensive rehousing services necessary to exit homelessness. Families can be accepted into emergency shelter without having to give-up their cherished pets; shelters will now offer onsite kennels for families that include pets.

You can register online @
